OFFICE OF THE PRINCIPAL

OFFICE ORDER

In Supersession of all previous order The Hospital Infection Control Committee is being reconstituted as under:

1.	Chairman	Medical Superintendent
2.	Member	H.O.D, Microbiology
3.	Member	Nursing Superintendent
4.	Member	One Senior Nurse as Incharge Under N.S
5.	Member Secretary	Dy. Medical Superintendent

**Activities of ICC:**

- (1) To implement policies & procedures related to hospital infection control program with each department.  
Monitor continuous improvement to evaluate quality of care of hospital infection control program.  
Monitoring the hospital stay of the patients.
  - Hand hygiene
  - Personal Protective Equipments (Gloves, Masks & Eyewear)
  - Respiratory Hygiene (Cough Etiquette)
  - Safe Injection Practice
  - Sterile Instruments & Devices
- (2) Monitoring of infections based on culture positivity. Its purpose being to know the organisms causing infections in the hospital and to monitor the anti-microbial resistance. Tabulation of data is done for individual departments every month.
- (3) Continuous surveillance of infections for early detection of outbreak for which, appropriate control measures are undertaken.
- (4) Surveillance of any community outbreak viz. Dengue, meningitis, diphtheria, meningococemia etc. to prevent spread within the hospital amongst HCWs.

  
Principal  
R.D.J.M. Medical College & Hospital  
Turki, Muzaffarpur

(5) Staff health activities are carried out with the objectives:

- ❖ Educating personnel about the Principles of Infection Control and stressing individual responsibility for Infection Control.
- ❖ Collaborating with the infection control team in monitoring and investigating potentially harmful infectious exposures and outbreaks among personnel.
- ❖ Providing care to personnel for work related illnesses or exposures.
- ❖ Continuous training and ongoing education is carried out for freshly recruited residents, nurses, and sanitation staff.
- ❖ Identifying work-related infection risks and instituting appropriate preventive measures.

The goals are met by using vaccines optimally to prevent transmission of vaccine preventable diseases.

(6) Advising Hospital authorities regarding terminal dis-infection of unit/Laundry, Proper Hospital waste Management etc.
